

Mr. Jaidev Dhavle is currently an Associate Programme Officer with the International Renewable Energy Agency (IRENA). He is a member of the Innovation and End Use Sector team that is responsible for conducting analysis on the innovation trends on the potential and application of renewable energy (RE) solutions within key economic sectors. At IRENA his thematic areas of focus include RE Quality & Standards; Offshore Wind; and the nexus between digital technology and RE. Before joining IRENA, he was a Project Associate with the Innovation and Digitalization Division at United Nations Industrial Development Organization (UNIDO). Previously, he has also undertaken internships at the International Atomic Energy Agency (Vienna); Sustainable Energy for All (Vienna); and the Organization for the Prohibition of Chemical Weapons (The Hague). He has a Bachelor of Science in Liberal Arts and Sciences from Maastricht University. He holds 2 Master degrees from University College London and TU Wien in Chemical Research and Renewable Energy Systems respectively.
