

Jim is the Senior Manager of BWR (Boiling Water Reactor) Design and Methods for Constellation. He is responsible for the nuclear fuel and core designs and core monitoring systems for 14 BWRs across 3 states (Pennsylvania, Illinois, and New York). Jim is a graduate of Pennsylvania State University with a BS in Nuclear Engineering, of Drexel University with an MS in Environmental Engineering, and has a Professional Engineer's License in Nuclear Engineering. Jim has been recognized for his nuclear industry accomplishments with 13 Nuclear Energy Institute (NEI) Top Innovative Practice (TIP) Awards. He also received the 2013 Outstanding Engineering Alumnus Award from Penn State University.
