

Joseph (Joe) Stekli is a Program Manager for LCRI at EPRI with responsibilities for managing the technical work portfolio under the initiative. Prior to LCRI, Joe had responsibilities for technical and economic R&D across EPRI's renewable technology portfolio. Joe joined EPRI in July of 2017.

Prior to joining EPRI, Joe spent one year at DARPA as the second hire into DARPA's newly formed Commercial Strategy Team within the DARPA Director's Office. There he helped develop strategies and processes to more efficiently transfer DARPA-developed technology to the commercial sector.

Prior to DARPA, Joe spent seven years with the U.S. Department of Energy and six years in semiconductor manufacturing. Most recently at DOE, he was the Program Manager for both the Concentrating Solar Power and Technology-to-Market (T2M) team within the SunShot Initiative. Joe's prior roles at DOE included being a T2M advisor in ARPA-E. Additionally, in his time at DOE Joe was selected to be a member of the President's Management Council for which he served a six-month detail in the White House Office of Management and Budget.

Joe holds a BS in chemical engineering with a minor in business and a MBA, both from Ohio State University.
