

Pierre holds a master degree and PhD in Physics from UCLouvain (Belgium). He worked for seven years as a postdoctoral researcher in different universities: Ohio State University (US) NIKHEF Laboratory (NL) and UCLouvain (BE). Thereafter, Pierre led multiple data science projects during 2 years as senior consultant at Deloitte (BE) (time series forecasting, risk modeling, image recognition). He joined N-SIDE in 2018 and led developments for the N-SIDE energy forecasting platform and applications in AI powered grid management.
