

Dr. Ray Grout is the director of NREL's Computational Science Center. He also serves as a point of contact for the Advanced Scientific Computing program, where he leads that program in computing research for the U.S. Department of Energy's (DOE's) Office of Science.

Ray previously served as group manager of the High-Performance Algorithms and Complex Fluids group within the Computational Science Center. Prior to joining NREL, Ray completed a postdoctoral appointment with the reacting flow research group at Sandia National Labs in Livermore, California after receiving a PhD in engineering from the University of Cambridge following degrees in Mechanical Engineering from the University of British Columbia.
