

AI AND ELECTRIC POWER SUMMIT

Enabling the Energy Transformation

OCTOBER 4-6, 2022
ROME, ITALY

EPRI's AI and Electric Power Summit will bring us back together, in person, on October 4-6, 2022 in "The Eternal City" of Rome, Italy.

Featuring 2.5 days of comprehensive Plenary and Breakout Sessions, the Summit will continue vital collaboration on artificial intelligence (AI) solutions that will enable the energy industry's transition to achieve 2050 net-zero goals.

Additionally, the Summit will offer an AI Technology Showcase that will provide industry vendors the opportunity to showcase products and solutions to our attendees.

We hope you'll consider participating as one of our valued sponsors at this important event for the advancement of the AI-electric power community!
